Professional Experience

Senior Product Manager | [Liberata \(Founding Head of Product\)](#)

Apr. 2025 – Present

- Defined and executed the 0 to 1 product vision and strategy for an AI-driven middleware platform, building the roadmap and aligning engineering, design, and business teams from inception.
- Established core processes for discovery, prioritization, and delivery, setting processes that allow from scaling a lean startup to a cross-functional organization.
- Partnered with founders to support fundraising and crafted investor materials, ensuring alignment of product milestones with business growth.

Product Manager | [SandboxAQ \(Google / Alphabet Spinout\)](#)

Jan. 2024 – Mar. 2025

- Directed development and global launch of [AQChemSim](#), a large-scale simulation product leveraging quantum and AI / Machine Learning -based algorithms, managing cross-functional engineering, research, and business teams to deliver \$1M+ enterprise pilots.
- Partnered with clients such as the [U.S. Army](#), [DIC](#), [Novonix](#), and Fortune-1000 enterprises, translating technical requirements into scalable MVPs and securing multi-year collaborations.
- Designed multi-year roadmaps and governance forums (risk, compliance, RAID) to ensure successful delivery of complex AI/quantum-enabled systems.

Associate Product Manager | [Good Chemistry Company](#) (acquired by SandboxAQ)

Dec. 2022 – Jan. 2024

- Coordinated the 0 to 1 build of QEMIST Cloud and the open-source Tangelo SDK, enabling developer access to quantum workflows, built to be modular to integrate with high-performance computing and machine learning tools.
- Orchestrated internal AWS Foundational Technical Review and achieved validated AWS Partner Network status.
- Managed partnerships with Dow Chemical, DIC, and AWS Clean Energy Accelerator, contributing to acquisition.
- Conducted market research and competitive benchmarking across quantum, AI, and materials science, translating findings into actionable roadmaps and various marketing collateral in partnership with AWS.

Applied Quantum Computing Research Scientist | [1QBit](#)

Jan. 2020 – Dec. 2022

- Developed hybrid ML-quantum-classical workflows in Python/C++ for portfolio optimization and materials modeling, [published in Review of Financial Economics](#) and presented to global executives.
- Contributed to building scalable software frameworks and API integrations that allowed clients to access 1QBit's quantum-inspired solutions seamlessly across cloud environments.
- Authored 6 [white papers](#), presented at conferences, strengthening developer adoption and investor confidence

Chief Data Officer | [STEM Fellowship](#)

Feb. 2020 – Oct. 2022

- Directed [data-driven product](#) strategy, growing client base by 123% and delivering ~20% YoY revenue growth through flagship product launches.
- Defined KPIs, monitored performance, and led multidisciplinary teams to optimize based on data insights.
- Built NLP-based candidate identification tool achieving 0.94 AUC, integrated across workflows: [Publication 1](#), [2](#).

Skills

Product Management: Zero-to-One Launches, Roadmap Development, Backlog Prioritization, Go-to-Market, KPI Definition, Governance & Risk, cross-functional alignment with data science, engineering, and business stakeholders

AI/ML Tools & Frameworks: TensorFlow, PyTorch, Hugging Face Transformers, LangChain, OpenAI API tools.

Data Science & Analytics: SQL, Python, R, Pandas, Scikit-learn, NLP (topic modeling, embeddings, transformers), Deep Learning (CNNs, RNNs, LLM fine-tuning), Computer Vision, Time Series Analysis, Anomaly Detection

Quantum Computing & Algorithms: Hybrid Quantum-Classical Workflows, Variational Quantum Algorithms (VQE, QAOA), Quantum Simulation, Optimization, Quantum Software Frameworks (Qiskit, Cirq, Tangelo).

Education and Certifications

B.Sc. Honors (Distinction) – Chemical Physics – [Simon Fraser University](#) | [Valedictorian Speech](#).

Certificate of Achievement in Pharmacology – Drug Discovery and Development | [Harvard Medical School](#).

PMP (Project Management Professional) | [Project Management Institute](#).

PSM (Professional Scrum Master) | [Scrum.org](#).
